Interfit shows Europe's Transport & Logistics sector benefits of innovative tire solutions at Ghent Expo

- **Interfit experts will showcase how state-of-the-art tire management can drastically improve operational efficiency for even greater results**
- **The Interfit tire services team will be at Booth #1123 with specialty tire solutions made for the transport & logistics industry**

Interfit, the global leader in specialty tire and wheel services, will bring its unique brand of tire replacement services and tire management solutions at the upcoming **Transport & Logistics Expo** in Ghent, Belgium. The Expo, taking place from September 17-18, 2024, is a major gathering for the logistics and transport industry, and the Interfit team will showcase its expertise at **Booth #1123**.

Interfit's presence at the Transport & Logistics Expo is the ideal platform to demonstrate its on-site tire fitting services and personalized tire solutions. Attendees will learn how fast and efficient tire services can help streamline their operations by having the right tire for the job and minimizing downtime, ultimately boosting the productivity of their fleets.

"The Transport & Logistics Expo in Ghent marks another significant milestone for Interfit as we continue to expand our presence in Europe," remarks Frans Roukens, Sales Director BeNeLux. "With a growing number of service centers across Europe, our goal is to provide unmatched tire solutions to businesses in the logistics and transport sectors. At Interfit, we understand that keeping your operations moving is crucial to your success, especially in the fast-paced logistics industry."
